Creating
### the
Bios CD

Creating the Bios CD

- Make a copy of the bios file you wish to use and rename this copy to BIOS.BIN.

- Select a CD or DVD media compatible with your XBox's DVD-Rom.

- Burn the BIOS.BIN file onto a CD, the following screenshots show how to perform this in Nero Burning ROM.
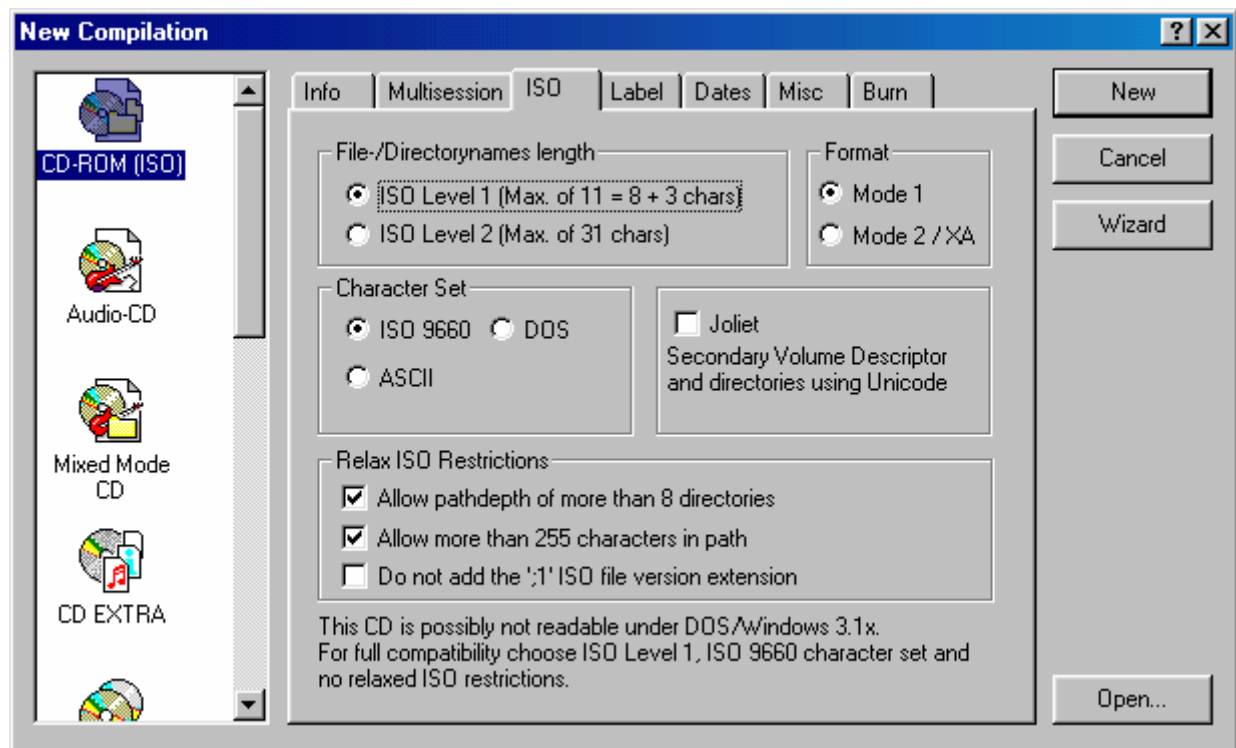

In the Multisession tab ensure *No Multisession* is selected.
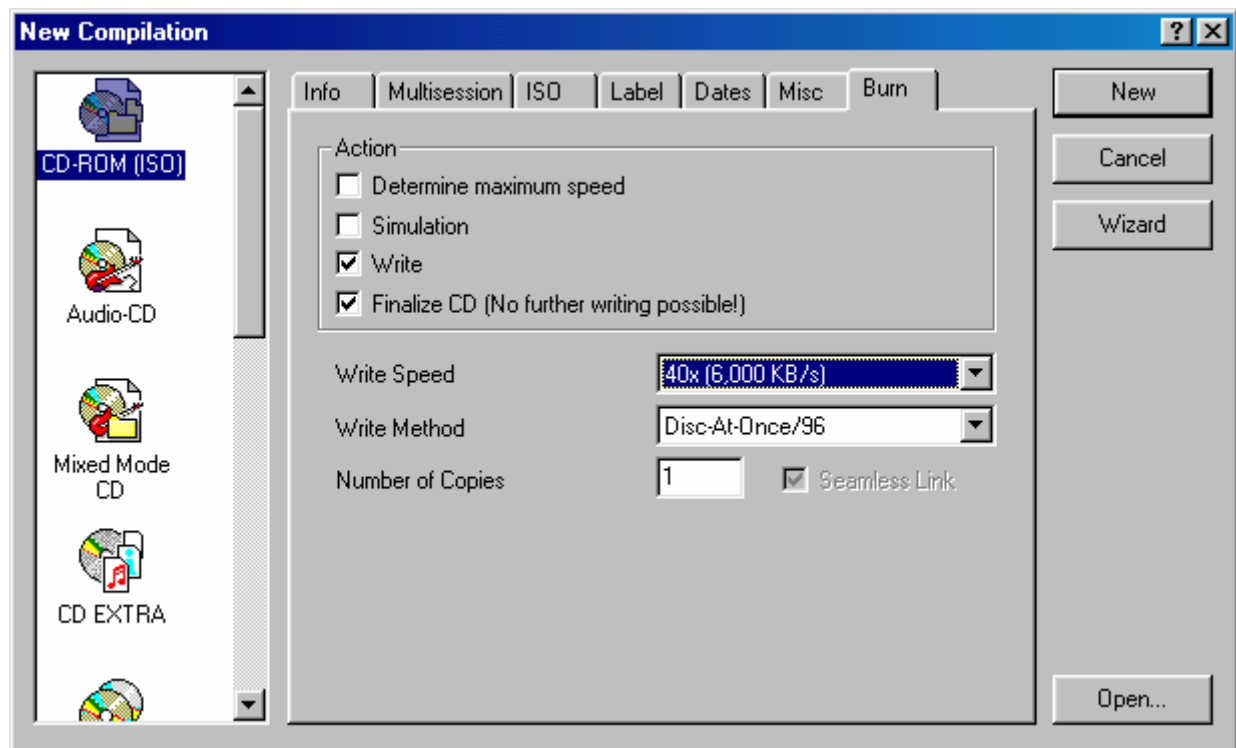

In the ISO tab select the following options:

ISO Level 1
Format Mode 1
ISO 9660

and Deselect *Joliet*

In the Burn tab select the following options:

Write
Finalize CD
Disc-At-Once/96

Remember to rename your bios file to BIOS.BIN and add a few files to the CD compilation to help the XBox's DVD-Rom read the CD.
